Director of a public relations firm Albert Pang opts for stress-free skin care with IMEDEEN man-age-ment

As director of Mercury Marketing and Communications Pte Ltd, looking his best at all part and parcel of professional decorum for Albert Pang. However, this can be hard to achieve amid a busy schedule. With the help of IMEDEEN's man-age-ment skin care supplement specially designed for men, Pang now exudes confidence that comes through skin that glows with health.

What are your daily grooming habits?

My daily grooming regimen is making sure the bare basics are covered – having a good face/body wash, scrub, shaving balm, deodorant, face and body moisturiser with built-in SPF and plenty of water to stay hydrated.

How important is it to look good for the work you do?

Looking good is important as my job requires me to meet clients, press and business partners on a daily basis. I do think it is important to look your best for work, regardless of the field of work you are in. Looking good for work encourages one to be positive and boosts self-confidence.

How has IMEDEEN man-age-ment improved your complexion?

After using IMEDEEN man-age-ment for about two months, I noticed my skin becoming softer and more supple.

Has IMEDEEN man-age-ment boosted your confidence and self-esteem?

With IMEDEEN man-age-ment, my skin has become healthier. It has definitely helped me look and feel my best.

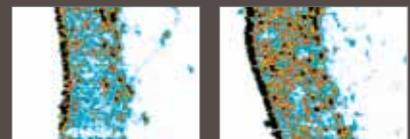

Has anyone noticed the difference?

Not yet, but I do get many stares when I'm out and about these days.

What do you like specifically about IMEDEEN man-age-ment?

I like how fuss-free it is. Just two tablets daily, and I can be providing my skin the nutrients and antioxidants it needs to get in good condition.

QUALITATIVE ANALYSIS

BEFORE IMEDEEN

WITH IMEDEEN

A quick examination of Albert Pang's skin before (left) and after (right) IMEDEEN intake reveals significant improvement of his skin quality in just a short time. IMEDEEN has led to an increase in collagen, elastin and moisture-retaining elements, represented by the coloured dots in Albert's dermis. The stronger, thicker black line indicates a better quality epidermis.

Skincare for men - in a tablet

IMEDEEN man-age-ment improves men's skin performance from within. The anti-ageing skincare works in the dermal layer of skin where moisturizers and balms cannot reach. Its patented ingredients of LycoPhence GS Forte™ and Marine Complex™ work in synergy to enhance skin quality. Two tablets a day give you smooth, healthy looking skin in as early as 90 days.
